

The Office of International Students & Scholars (OISS) advises international students on the F-1 and J-1 U.S. F-1 visa and the post-nominal "in-liaison" status which in the U.S. is the appropriate status for those who hold...

Benefits of Hiring International Students

Our international students bring a unique, well-rounded global perspective to your business.

They have been exposed to multiple cultures and models, have country-specific knowledge, speak several languages, are adaptable and deal well with ambiguity.

Myths: Hiring International Students

Hiring an international student is complicated and costly.

In fact, it is quite straightforward with this sponsorship and at no additional cost to the employer during their employment. F-1 students can work under Curricular Practical Training (CPT) during their degree (full-time or part-time). J-1 students can work under Academic Training (AT) full-time or part-time during or after their degree. There is NO cost to the employer for either of these work authorizations.

There is no paperwork involved in hiring an international student

International students pursuing an internship or employment during their degree under CPT or Academic Training only require an offer letter from the employer and the appropriate request to their current field of study. OISS provides the I-20 or DS-2019 as proof of work authorization to bring to the employer to complete the I-9.

International students can only work in compliance on a short-term basis

F-1 students can work on CPT full-time for 11 months and 29 days or unlimited part-time while pursuing their degree. F-1 students can also work on OPT if they have completed their degree. F-1 students can also work on STEM OPT if they have completed their degree in Science, Technology, Engineering & Math. J-1 degree seeking students can work for 18 months during and/or after their degree. Therefore, F-1 students can work up to 4 years full-time (Science, Technology, Engineering & Math) with a J-1 sponsorship to continue work.

Employers must interview U.S. citizens first before making an offer to international students.

Employers are not required to interview U.S. workers before making an offer to an international person.

Students with F-1 and J-1 immigration statuses are subject to the same requirements of the Internal Revenue Code applicable, federal, state, and local income taxes.

Generally, F-1 and J-1 students are exempt from Social Security and Medicare taxes. However, if F-1 students are considered "resident aliens" for tax purposes, Social Security and Medicare taxes should be withheld.
